Dear Colleagues & Friends,

We are pleased to welcome you to the 14th International Conference on Acute Cardiac Care 2025 in Tel Aviv.

This conference, held under the auspices of the ESC Association for Acute Cardiovascular Care (ACVC) and Israeli Heart Association (IHS), has become one of the leading scientific events worldwide on this topic.

During the conference we will cover the contemporary practice of acute coronary syndrome patients, acute heart failure including urgent percutaneous interventions, emergent life-threatening arrhythmias, acute pulmonary embolism, emergency imaging in acute cardiac care and the collaboration with the EMS field crews including a special nurses track which will be conducted in Hebrew.

Our rich and encompassing program, which contains lectures, debates and hand-on practice, guided by the leading investigators and clinicians in this field, will ensure a meaningful learning experience.

We wish you a stimulating conference.
